# Change needs utopia.

Europe needs answers to the pressing questions of our time: environmental destruction, climate crisis, digitalisation, the power of algorithms, systematic lies in politics, new autocracies, unregulated globalisation, threats to the rule of law and war.

Europe needs a new, powerful commitment and joy in the idea of peace, shared values and prosperity.

Change needs utopia – and in a first step this can be achieved by updating European fundamental rights! This is what the foundation Jeder Mensch e.V. (“Every One”) is campaigning for on the initiative of the German writer and lawyer Ferdinand von Schirach. Through a European constitutional convention, we want to expand the EU Charter of Fundamental Rights and make its enforcement actionable. For Every One.

So far, renowned experts, think tanks, NGOs and decision-makers from fields such as law, politics, science and culture have joined the initiative in 13 EU member states. More than 266,000 people have already signed for six new fundamental rights via [everyone-initiative.eu](https://www.everyone-initiative.eu).

With your support, we can not only make an impact on the political level, but also implement projects to involve even more people! For a new idea of Europe, for a Europe of the people, for future-proof fundamental rights!
